

SCRATCH HERE  
TO SEE IF YOUR  
PIPES ARE LEAD

NOW SCRATCH YOUR  
WATER PIPE.

IS THERE A  
SILVER  
STRIP?

OTHER SIGNS INCLUDE GREY  
OR BLACK SWOLLEN PIPES IN  
HOUSES BUILT BEFORE 1970.

LEAD COULD BE  
HARMFUL,

PARTICULARLY IF YOU'RE

PREGNANT OR HAVE  
YOUNG CHILDREN.

➤ Check your pipe where it enters your property, usually at your stop tap. Avoid drinking water left standing in lead pipes. Call our **Lead Advice Line** for a **free** test.
